Feels

What are their fears, frustrations, and anxieties?  
What other feelings might influence their behavior?

Does

What behavior have we observed?  
What can we imagine them doing?

Persona’s name

Short summary of the persona

"explore the world" can mean different things to different people, but generally it refers to the act of travelling to different places, experiencing new cultures, and learning about the diversity of our plane

Twenty years from now you will be more disappointed by the things you didn't do than by the ones you did do. So, throw off the bowlines. Sail away from the safe harbor. Catch the trade winds in your sails. Explore. Dream. Discover."

Some people may explore the world through physical travel, while others may do so through reading, studying, or other forms of research.

"JOBS FILL YOUR POCKETS, BUT ADVENTURES FILL YOUR SOUL."

"we are all need some money because enjoying life. we are all hope one day change every thing"

"we are all dream exploring the world"

In psychology, theory of mind is an important social-cognitive skill that involves the ability to think about mental states, both your own and those of others. It encompasses the ability to attribute mental states, including emotions, desires, beliefs, and knowledge, and recognize that other people's thoughts and beliefs may differ from yours.

Postures, movements, nonverbal and verbal behavior - all can be observed. Watching people, seeing their behaviors, looking at their performance, is interesting for many reasons.

To travel somewhere in search of discovery.

To wander without any particular aim or purpose.

World lives in the atmosphere of suspicion and fear, this will happen, that will happen! Fear and suspicion are related feelings. One is the cause, while other is the effect. Attain Peace.

Emotion has a substantial influence on the cognitive processes in humans, including perception, attention, learning, memory, reasoning, and problem solving
